Space Launch Initiative engine testing ongoing at Marshall

Marshall engineers are conducting a series of engine tests at the Center as part of the Space Launch Initiative. The engine currently being tested is a Reaction Control Engine that uses non-toxic chemicals as propellants. Multiple engine designs using different propellant combinations are being tested as part of Marshall's Space Launch Initiative work.

**Blue Cross/Blue
Shield rep visits
Marshall 9-11 a.m.
Tuesday, Bldg.
4200, Room 324**

**Earth Day T-shirt
orders due
Wednesday**

Password changes to MIS3090 effective Monday

Password synchronization and auto log on between the Marshall mainframe host and IDS servers will be disconnected Monday. Users no longer will be able to synchronize IDS passwords with the MSMIS host. Users must log on to the MSMIS host by entering an identification and password. For more information, go to <http://www.nacc.nasa.gov> or call 544-HELP, Option 8.
